

LATEX BLOCK PRINT PROJECT RUBRIC

A	D-F
Student researched three different styles of ornamentation based on three different cultures or historic eras. Images from the research are posted in the journal	Student did not do adequate research, images are not clear, two few examples are included in book.
The research journal contains sketches from the research and experimentation with the ideas including annotation	There is little evidence of student research and experimentation and no annotation or annotation that does not articulate the issue
The pages in the journal are numbered and dated.	Student did not number and date pages
Student cuts at least three different motif ideas and does at least two reduction prints.	There is inadequate experimentation.
Class deadlines are met	Class deadlines are not met
Student is able to annotate in his book using the unit vocabulary words	Vocabulary words are not used or not used correctly
Student produces four successful printed papers using reduction printing, overprinting, and contrasting motif ideas.	Assignments not met
The technical skill in printing results in clear shapes and careful spacing	Printing uses too much or too little ink. Images are blurred. Spacing is not carefully done.
