

## RUBRIC FOR COLOR SYSTEM

### A

Student made clear progressions between color compliments using 8 steps.

Student made clear progressions between tints using 8 steps, (except between yellow and white which uses seven steps).

Student created a color system by painting tiles of colors and arranging them into combinations that contrast value, color intensity, and hue.

The color system uses color compliments or split compliments combined with neutral colors.

Color systems appear harmonious.

Journal pages are numbered and dated.

### D-F

The color progressions do not move in even steps or does not use at least 8 steps.

Color progressions steps are not correct. The jumps between tints are either too big or too small.

Student does not complete a color system or makes one that does not contrast values, color intensity and hue.

The color system appears to be random

Colors seem discordant or chaotic.

Journal pages are not dated and numbered.
